A not-to-be missed date for your diary:

Dr Kathleen McCormick  Ph.D., RN, FAAN, FACMI, FHIMSS

“Outcomes, metrics and evidence in health care”

Friday, 23rd September 2011, at 2.00pm
Room 143, Glyndwr Building, Singleton Campus, Swansea University

Dr McCormick is one of the world’s leading nurses in the field of nursing informatics, nursing outcomes, and nursing quality measurement. In 1997 she came to Swansea to speak at the first ever UK conference on Nursing Outcomes. At that time she was the lead nurse at the US Agency for Health Care Policy and Research (AHCPR, now AHRQ) where she directed the clinical practice guideline program, was the project manager for the LOINC standards and the accelerated patient record program, and the decision support program at AHRQ. Dr. McCormick spent 13 years as an informatics scientist and clinical trials researcher within the National Institutes of Health. She is an elected member of the US National Academy of Sciences Institute of Medicine for contributions to healthcare in America. She is currently Senior Principal Scientist with Science Applications International Corporation (SAIC), which is a Federally Funded Research and Development Center (FFRDC) established to meet specific long-term technical needs in defense, energy, aviation, space, and health and human services that cannot be met by any other single organization. She is in Europe to promote the newly published 5th edition of her classic textbook Essentials in Nursing Informatics which she co-authors with Dr Virginia Saba

ALL WELCOME!
