HYWEL DDA UNIVERSITY HEALTH BOARD

1. INTRODUCTION
Hywel Dda University Health Board (HDUHB) recognises that certain groups and individuals within society may experience disadvantage and unfair discrimination. Stakeholders, (including the public, patients and staff) expect HDUHB to take a proactive approach to meeting its obligations under equality and human rights legislation and to putting its stated Values into practice.

The purpose of this policy is to provide a framework to facilitate HDUHB to meet its legal, social, moral and ethical obligations to advance equality of opportunity and outcome, foster good relations and eliminate discrimination, victimisation and harassment and to uphold human rights principles in relation to:-
- Employment
- Service Delivery
- Goods and service suppliers and
- Contractors and outside agencies.

The Equality Act 2010 prescribes that people should not be discriminated against in relation to:-
- Age
- Disability
- Gender (Sex)
- Gender Reassignment
- Marriage and Civil Partnership
- Pregnancy and Maternity
- Race
- Religion or Belief (including no belief)
- Sexual Orientation

Discrimination can be direct or indirect and can take the form of treating people less favourably because of any of the above, including colour, culture, ethnic origin, language, facial disfigurement, nationality and, (by association), carer status/responsibility for dependants. It can also arise from unconscious bias, perception, and failing to take account of differences between people and groups which can result in barriers to access to services and opportunities.

The policy is intended to assist staff to practise a values based approach when carrying out their duties and to be proactive in creating an inclusive environment where everyone is treated fairly and equitably.

2. POLICY STATEMENT
The HDUHB believes that all forms of unlawful discrimination are wrong and recognises that some groups and individuals are more at risk of experiencing unfair discrimination and barriers in employment and in their contact with public services. We acknowledge the importance of complying with equality and human rights legislation and commit to undertaking any necessary steps to identify and address exclusion, discrimination, harassment, victimisation, marginalisation and exploitation of groups and individuals on the basis of their protected characteristics as defined in the Equality Act 2010. In all our activities, we will seek and use opportunities to advance equality and foster good relations between those who share protected characteristics and those who do not, for the benefit of all.

As a major employer and service provider, HDUHB wants to create, develop and demonstrate a positive approach to being an inclusive employer and providing equitable services. We will work to ensure that equality, diversity and human rights principles are understood, owned,
HYWEL DDA UNIVERSITY HEALTH BOARD
valued and demonstrated by Board Members, staff at all levels across HDUHB and those who provide services on behalf of the organisation.

Attracting and retaining a diverse workforce, listening to and responding to what our service users tell us, will enable us to become an employer of choice, utilising the best skills and expertise to deliver equitable services in a truly person-centred environment.

3. SCOPE
This policy covers all functions undertaken and policies developed or adopted by HDUHB. This document covers all staff at all levels across HDUHB and community sites, including volunteers and locums. HDUHB will collect and evaluate relevant data, in order to influence future practice and policy development, and to see how far we are achieving our Strategic Equality Plan specific objectives.

Definitions within the Policy

Equality
Equality is essentially about creating a fairer society where everyone can participate and has the opportunity to fulfil their potential. It is supported by legislation designed to address unfair discrimination that is based on identified protected characteristics. In some circumstances positive action is encouraged to address discrimination. This is often summarised as;
- Equal Access
- Equal Treatment
- Equal Participation
- Equal Outcomes

Diversity
Diversity is about recognition and valuing of differences in its broadest sense. It is about creating a working culture and practices that recognise, respect, value and harness differences for the benefit of the organisation and the individual. Equality and diversity are not
Protected Characteristics

The Equality Act 2010 introduced the term "protected characteristics" to refer to a set of criteria by which groups are protected under the Act as listed below.

- Age
- Disability
- Gender (Sex)
- Gender Reassignment

- Pregnancy and Maternity
- Race
- Religion or Belief (including no belief)
- Sexual Orientation

Direct Discrimination

The treatment of one person/group less favourably because they belong to a protected group because of their age, disability (including HIV/AIDS) ethnic origin, race, gender, marital status, nationality, pregnancy and maternity, religion or belief, sexual orientation, gender reassignment or social background.

Discrimination by Association

This applies where a person is directly discriminated against because they associate with someone from one of the protected groups or because they perceive that it is because they associate with someone from a protected group. This applies to age, disability, gender reassignment, race, religion or belief, sex or sexual orientation.

Discrimination by Perception

This applies where there is direct discrimination against an individual because others think that they possess a particular protected characteristic, or are associated with someone who has a protected characteristic. This applies to age, disability, gender reassignment, race, religion or belief, sex or sexual orientation. It applies even if the person does not actually possess that characteristic.

Indirect Discrimination

This applies where there is a condition, rule, policy or practice within the service that applies to everyone but particularly disadvantages people who share a protected characteristic. Indirect discrimination can only be justified if it can be shown that the condition, rule or practice is reasonable and is a proportionate means of achieving a legitimate aim. Proportionate means being fair and reasonable at that consideration has been given to less discriminatory alternatives. This applies to age, disability, gender reassignment, race, religion or belief, sex or sexual orientation, marriage or civil partnership.

Human Rights
Human rights are the rights and freedoms that belong to all individuals and help define the relationship between citizens and the public sector. They are about fairness, respect, equality, dignity and autonomy for all. Further information on Human Rights is contained in the Human Rights Act 1998.
