To ensure a wide distribution of the framework, the Health Board accessed the contact databases of each Health, Social Care & Wellbeing Partnership and the 3rd Sector in the 3 counties.

Each organisation and individual on each database has received a letter containing a copy of the framework, details of where to find more information and an offer of a presentation by Health Board officers on request.

In addition, the most recent surveys undertaken by the Citizen’s Panel in each county included a series of questions on the Framework. The feedback is currently being analysed and will be uploaded on the Health Board’s web site.

Details of other feedback received to date, Health Board responses and other activities undertaken are also uploaded.
